WORK EXPERIENCE

Full Stack Developer — Ministry of Finance of Georgia, Financial Analytical Service Apr 2026 – Present
Tbilisi, Georgia

- Build and maintain full-stack features for eTreasury, a mission-critical treasury platform used by 1,500+ government organizations across Georgia.
- Translate business analyst specifications into production-ready implementations using AngularJS, .NET Core, and SQL.
- Troubleshoot production issues and adapt platform functionality to evolving requirements from the State Treasury and user organizations.

Part-Time Software Developer — Noteastic Oct 2025 – Mar 2026
Bremen, Germany (Remote)

- Shipped new features for a note-taking application serving 6,000+ monthly active users.
- Built C# business logic and XAML interfaces for UWP applications, expanding the app's feature set for Windows users.
- Diagnosed and resolved software defects, improving performance and responsiveness across Windows devices.

Junior Account Manager — Noventiq Georgia

Nov 2024 – Feb 2025

Tbilisi, Georgia

- Managed IT requirements for 15+ SMB clients, acting as the primary point of contact to translate business goals into technical plans.
- Collaborated with sales engineers to scope and present custom technical solutions, supporting the closing and onboarding of new client contracts.

Web Developer — Qwerty LLC

Jun 2024 – Nov 2024

Tbilisi, Georgia

- Led frontend development of Rezto.ai, a restaurant reservation platform (React, Next.js), building customer booking workflows and restaurant management dashboards for 80+ active restaurants.
- Connected frontend components to RESTful APIs, ensuring reliable handling of high-volume bookings.
- Partnered with UI/UX designers to translate wireframes into responsive, cross-browser features across mobile, tablet, and desktop.

Software Engineering Intern — Qwerty LLC

Jun 2023 – Aug 2023

Tbilisi, Georgia

- Built features for web and mobile applications using React Native and TypeScript within a 5-person Agile engineering team.
- Participated in code reviews, sprint planning, and collaborative feature development.
